

THE OMAR HAKIM EXPERIENCE

*"the great
drummer's
magnum opus"*

- Bill Milkowsky
Downbeat Magazine

Master Drummer for such artists as Daft Punk, Sting, Madonna, Miles Davis, Dire Straights, Weather Report and David Bowie and releases his 3rd solo album. A Cross-genre, Cross-Cultural improvisational musical statement of originality and maturity.

Produced, Arranged and Engineered by Omar in his OZmosis recording studios, each song is meticulously crafted and engineered to create deep sonic landscapes that lend a panoramic and cinematic quality to the listening experience. All the while, this musical journey through Hakim's mind and heart, soothes the soul while rocking your body with exploratory funk, rock and jazz, world and odd time rhythms...

TEXTURAL & COLORFUL

We Are One is on the cusp of innovations in electronic music sound design and mixing possibilities. Omar's self-engineered CD is aurally infused with the entire musical color wheel! Hakim successfully travels through a pastel palette of sonic landscapes and sing-able pastoral and expressive melodies, which create cascading 3D sonic ear candy. This innocently prepares the listener for the inevitable hi energy outbursts of fiery fuchsia infused burning jams!

8 years in the making, the album features passionate performances by a supportive cast of long time friends and musical collaborators... Jerry Brooks, Scott Tibbs, Chieli Minucci, Abdul Zuhri, Bobby Francheschini, Gregoire Maret, Angel Rogers, Jimi Tunnell and Rachel Z.
